The CSC has set up a facility by which the departments and centers can set up and maintain their own mailing lists and aliases. This is in addition to a personal alias which each user can set.

Departments and centers are requested to nominate one permanent faculty/staff who will be responsible for maintaining the lists and aliases through the secure website at <https://userm.iitd.ernet.in/usermanage/lists.html>

. The nominations can be forwarded through the respective HOD/HOC.

The aliases and lists can be viewed at [here](#) . The departments and centers may find this facility useful for defining special mailing lists like drc/crc, for setting up conference mailing lists, etc.
